VENGALA GAGAN CHANDRA TEJ

Warangal, Telangana | +91 6304867350 | tejchandra100@gmail.com
Portfolio | GitHub | LinkedIn

OBJECTIVE

Computer Science (AI & ML) undergraduate with strong foundations in software development, artificial intelligence, machine learning, cloud computing, and full-stack web development. Experienced in building production-grade RAG systems, multi-tenant SaaS platforms, and federated learning systems — architecture through. Passionate about solving real-world problems through scalable, secure software solutions, with strong analytical, communication, and teamwork skills.

EDUCATION

- **SR University, Warangal** — B.Tech, Computer Science (AI & ML) | Expected Graduation: 2028
- **Bansal Classes** | 2022 – 2024
- **Warangal Public School (CBSE)** | Completed 2022

SKILLS

Programming Languages: Python, C, JavaScript, TypeScript
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS
Cloud & DevOps: AWS, Docker
Databases: PostgreSQL / PostGIS, MongoDB, Redis
Tools & Practices: REST APIs, Git
AI / Machine Learning: Machine Learning, Deep Learning, RAG Systems, LLM Integration
CS Fundamentals: Computer Networks, Operating Systems
Soft Skills: Communication, Teamwork

PROJECTS

- **VanSetu —** AI-powered FRA Atlas & WebGIS Decision Support System built for Smart India Hackathon 2026 (SIH12508, Ministry of Tribal Affairs) with team "Byte Owls," selected among 100 teams in the college internal round. Architected a full-stack GIS platform (React/TypeScript/Leaflet, Node.js/Express/Prisma, PostgreSQL+PostGIS) with 4-role RBAC (JWT + refresh rotation + bcrypt), append-only audit logging with PII masking, and secure evidence upload (MIME/EXIF validation, signed URLs).
- **AyuLink —** Team Lead of a 5-member team ("Fight Club") that built a low-cost, fully offline patient monitoring system for rural areas: a smart wristband, gateway and smart hub (LoRa mesh network, smart pill dispenser) that tracks health, reminds patients about medicines, and alerts caregivers with no internet or network signal. Demonstrated a complete working model live to judges and faculty; **won 1st Prize in the Health domain at Pragathi 2.0, SR University.**
- **HomelyHub —** AI-powered stay-booking platform built from scratch during the Emertxe × Webstack Academy MERN internship (React, Redux Toolkit, Node/Express, MongoDB): search/filter stays by city, dates and budget, an AI trip planner that generates budget-matched day-by-day itineraries, AI-written property descriptions (Groq), JWT auth with hashed passwords, and double-booking prevention. Live: homely-hubx.vercel.app
- **StudyMate AI —** Full-stack AI study and placement companion for engineering students: RAG-grounded doubt-solving chat cited to source documents, AI-generated summaries/flashcards/quizzes, a self-trained Half-Life Regression model for adaptive spaced repetition, an interactive knowledge graph, and a resume-vs-JD skill-gap analyzer. Live: studymate-aix.vercel.app
- **FedLearn Hub —** Full-stack federated learning platform where users collaboratively train an MNIST classifier in-browser (TensorFlow.js) using FedAvg aggregation on a FastAPI backend; built with a weight-norm sanity check to reject malicious client updates. Deployed live (React/Vercel frontend, FastAPI/Render backend, PostgreSQL + Redis). Live: fed-learn.vercel.app
- **Quill AI —** RAG-powered writing and research assistant with document chat, summarization, and contextual Q&A. Live: quill-ai-eight.vercel.app
- **SRU Lost & Found —** Full-stack lost-and-found platform for SR University: two-way lost/found reporting, smart location tagging, a private tokenized resolve flow, automatic 10-day post expiry, an authenticated admin moderation dashboard, and abuse reporting. Live: sru-lost-found.vercel.app

INTERNSHIPS

MERN Full Stack Development With Project Virtual Internship — AICTE–EduSkills, National Internship Portal (Ministry of Education) | August – October 2026 (8 weeks)

- Completed an 8-week virtual internship in MERN full-stack development with a project component; Grade: A; Certificate ID: 4750b38a690b9624c571

MERN Stack Intern — Emertxe Information Technologies in partnership with Webstack Academy (WSA) | 12 August – 16 September 2026

- Built HomelyHub, a full-stack property booking platform, from scratch (schema, routes, auth, AI features, deployment) guided through the MERN curriculum; Certificate ID: WMSI26_008

Data Science Master Virtual Internship — AICTE–EduSkills, National Internship Portal (Ministry of Education) | Supported by Siemens | June – August 2026 (8 weeks)

- Completed an 8-week virtual internship in Data Science, supported by Siemens Industry Software (India) Pvt. Ltd.; Grade: Outstanding (O); Certificate ID: 4a848755599664f6e56c

ACHIEVEMENTS & CERTIFICATIONS

- **1st Prize, Health Domain — Pragathi 2.0, SR University (October 2026):** Team Fight Club, for AyuLink (Team Lead)
- **Oracle Certified Foundations Associate (Agentic AI)** — September 2026
- **NVIDIA Fundamentals of Deep Learning** — Certificate of Competency

VOLUNTEER EXPERIENCE

National Cadet Corps (NCC) —

- A-Certificate, Air Wing (2021, Completed)
- B-Certificate, Army Wing (2026, Completed)
- C-Certificate, Army Wing (Ongoing)

LANGUAGES

Telugu • English • Hindi • Japanese
